FIXED POINT FOUNDATION

We take ideas seriously

Fixed Point Foundation Releases Six DVDs Aimed at Empowering Christians to Defend their Faith in a World Increasingly Hostile to Christianity.

Featuring “new atheists” Richard Dawkins and Christopher Hitchens, as well as Christian defenders John Lennox, Dinesh D’Souza and Alistair McGrath

Birmingham, AL - Fixed Point Foundation has joined with New Day Christian Distribution to release a six DVD series to help Christians defend their faith in a post-modern and arguably post-Christian world. These DVDs are available at an affordable introductory retail price point of \$12.98 each, enabling more believers to understand how to engage the current culture while strengthening their own beliefs about the truths of Christianity.

Along with these DVDs, Fixed Point will provide free downloadable study guides, available on their website, allowing the films to be used as part of a small group or classroom discussion.

“Remaining comfortably insulated from the people and ideas that shape our world is not what we are about,” explains Larry Taunton, Executive Director of Fixed Point Foundation. “On the contrary, we have engaged some of the most vitriolic opponents of the Christian faith. It is our opinion that much of the cultural discussion on these issues is less than helpful, consisting as it so often does of shouting heads and sound bites. What we’re seeking is a rational, civil exchange of ideas.”

The DVDs include:

The God Delusion Debate – Filmed before a sold-out audience and broadcast to over one million worldwide listeners, this remarkable debate pits world-renowned atheist Richard Dawkins, author of *The God Delusion*, against his Oxford University colleague John Lennox, a respected scientist and Christian theologian.

Has Science Buried God? - Profs. Richard Dawkins and John Lennox go head-to-head once again for another gripping match of the intellect - this time on their own home turf: Oxford itself.

Is God Great? - Leading atheist and acclaimed journalist Christopher Hitchens, author of *God is Not Great: How Religion Poisons Everything*, debates Christian apologist and Oxford Professor John Lennox over the question of God's greatness.

God On Trial - Acclaimed atheist and journalist Christopher Hitchens debates bestselling author and Christian defender, Dinesh D'Souza, in the Gateway City on the existence of God.

Can Atheism Save Europe? - At the world's largest cultural arts festival in Edinburgh, Scotland, Christopher Hitchens and John Lennox debate whether or not the New Europe should jettison its religious past and welcome the "New Atheism."

Science and the God Question – Fixed Point Foundation's Larry Taunton hosts a discussion on the alleged controversy between science and Christianity. This documentary is divided into six parts and features such guests as Oxford University's Professors Alistair McGrath and John Lennox.

These DVDs are available now in the United States and Canada through New Day Christian Distribution. In the UK, the DVDs are available now through Kingsway. In Australia and New Zealand, the DVDs are available now through Koorong and Crossroads Distribution.

About Fixed Point -

Fixed Point Foundation is committed to publicly defending Christianity through education, events, and the development of innovative resources that empower Christian and challenge skeptics. Fixed Point Foundation is located in Birmingham, Alabama and is a registered 501c3 organization. www.fixed-point.org
